

Accessibility Policy

This accessibility policy sets out information which details the availability of the Fotowatio Renewable Ventures B.V. (“**FRV**”) Australian project websites at the domains <www.claresolarfarm.com.au> and <www.moreesolarfarm.com.au> (together, the “**FRV Website**”) to users with different needs. This accessibility policy covers the aims and approach to accessibility, the core functions a user of the FRV Website should be able to perform and what FRV is doing in practice to improve the accessibility of the FRV Website.

Introduction

FRV recognises that many different forms of disability affect access to the FRV Website. A proactive approach to improving the FRV Website and the services offered via the FRV Website has been adopted.

FRV aims for the FRV Website to meet the needs of disabled users and offer accessible information and services. FRV endeavours to move towards compliance with the World Wide Web Consortium (W3C) Web Content Accessibility Guidelines (WCAG) 1.0 AA standard. FRV seeks to provide a good experience for users of the FRV Website with special needs.

FRV also recognises its obligations under the Australian federal *Disability Discrimination Act 1992* (Cth) to provide equal access to its online services for people with a disability where it can reasonably be provided. This accessibility policy demonstrates how FRV seeks to comply with these obligations by ensuring that the FRV Website is accessible to users with different needs.

Approach

FRV’s approach to accessibility is to attempt to make the FRV Website and services easy to use and understand for all users, including by the customisation of computing devices. It is recognised that not just disabled people are affected by issues of accessibility. The FRV Website webpages intend to be clear with easy to follow content.

Using the FRV Website

The FRV Website has been developed to be fully html 5 compliant with all titles, links, and other text content fully compliant. This allows all text readable by text readers and fonts adjustable by html 5 compliant browsers. The FRV Website is responsive to both form factor and font sizing changes assuming reasonable usage.

The FRV Website includes the following:

- a site map.
- contact details for FRV .
- contact details to provide feedback regarding improving the accessibility of the FRV Website.

Customer involvement

FRV welcomes the feedback of users of the FRV Website with special needs. FRV will seek in the future to involve, as appropriate, those users in the development and testing of new services and content.

Alternative solutions

FRV may be able to offer an alternative format or solution to accessibility problems encountered by users of the FRV Website. Please contact the FRV using the contact details as set out below.

Standards compliance

Although the FRV Website doesn't currently fully comply in all areas, FRV's aspiration is to conform to the Worldwide Web Consortiums (W3C) Web Content Accessibility Guidelines 1.0, Level AA, and ensure it maintains this standard once it is achieved. This accessibility standard is being achieved by ensuring the FRV Website content is clearly presented and written in a way which the FRV believes is easy to understand and follow.

Contacts

If you have any questions or feedback regarding the accessibility of the FRV Website, or if you experience any difficulty using the FRV Website, please contact FRV via infoaustralia@frv.com, giving details of your query.
